

B2B PACKAGING PRESENTATION PROTOCOL

REDFOOT COFFEE RANGE

Custom Printed High-Barrier Flat-Bottom & Stand-Up Coffee Pouch Solutions

PREPARED FOR

Sharleah @ RedFoot & Co.

PREPARED BY

Ryan / Achieve Pack Specialist

DATE & LOCATION

May 2026 // WA Supply Chain

1. HIGH-BARRIER MATERIALS FOR WA HEAT

Slide 02

RECYCLABLE PE+EVOH CODE 4

Fully recyclable mono-material structure designed for standard drop-off streams. EVOH delivers high-performance oxygen-locking barriers.

- ✓ FSC Premium Matte White touch
- ✓ High barrier blocks moisture/oxygen
- ✓ 100% Recyclable Eco-circularity
- ✓ High durability in regional temperatures

FSC KRAFT COMPOSTABLE

HOME
BIO

FSC Kraft paper laminated with high-barrier VM-Cello (bio-metallized) film and compostable zip/valve. Decomposes in backyard compost piles.

- ✓ Premium organic raw-touch aesthetic
- ✓ Bio-metallized light & gas block
- ✓ BPI & TUV Home compost certified
- ✓ Decomposes in backyard compost in 12m

PURE ALUMINUM FOIL PURE BLOCK

Triplex structure with pure aluminum foil layer (7-9 microns). Absolute zero-transmission rate. Ideal for long shelf life in severe WA hot weather.

- ✓ Absolute zero gas transmission
- ✓ Light-shielding defense for roasted beans
- ✓ Keeps roasted coffee ground aroma intact
- ✓ Ultimate shelf life extension (+18 months)

2. SUGGESTED BAG SIZING SPECIFICATIONS

Slide 03

LANDSCAPE BOX POUCH DIMENSIONING

Flat-bottom box pouches provide unmatched retail shelf presence. The sizing below is optimized for ground coffee densities and whole bean expansion volume. For custom runs, we offer 100% customizable sizes down to the millimeter to optimize cost and bag-to-volume ratio.

- ✓ **Ground Coffee vs Whole Beans:** Ground coffee packs tightly (150g & 250g), while whole beans (500g & 1kg) require larger expandable volume and side gusset venting.
- ✓ **Dieline Adjustments:** Width and height parameters are optimized for folding consistency across both flat-bottom (square) and stand-up (doypack) layouts.

ROAST SKU	CAPACITY	DIMENSIONS (W × H + GUSSET)	LAYOUT STYLE
150g Ground	~150g coffee	13.5 × 14.5 + 8 cm	Landscape (魔方)
250g Ground	~250g coffee	15.5 × 16.5 + 8 cm	Landscape (魔方)
500g Beans	~500g beans	19.5 × 20.5 + 8 cm	Landscape (魔方)
1kg Beans	~1000g beans	23.0 × 24.0 + 10 cm	Landscape (魔方)

3. SOLUTION A: UNPRINTED POUCH + APPLIED STICKER

Slide 04

STOCK POUCH + CUSTOM BRANDED STICKER

FAST
DISPATCH

We supply pre-made premium high-barrier matte white flat-bottom pouches with pre-installed resealable zippers and degassing valves. We print high-resolution color stickers matching your 4 blends (Pippingarra, Barrga Binya, Karijini, Cooya Pooya) and apply them locally.

- ✓ **Flat Unit Price:** \$0.50 USD flat per bag (All sizes!)
- ✓ **Setup Cylinder Costs:** \$0.00 (Zero plate or cylinder setup costs)
- ✓ **Minimum Order Quantity:** 100 bags per SKU (Perfect for 1,600 bags total run)
- ✓ **Lead Time:** 3 - 5 days dispatch + air freight

PREMIUM KRAFT STAND-UP POUCHES - KEY FEATURES

Premium unprinted matte white flat bottom pouch thumbnail

4. CUSTOM DIGITAL PRINT SOLUTIONS (B & C)

SOLUTION B: FLAT-BOTTOM POUCH CUSTOM BOX

100% full-bleed edge-to-edge custom print directly on the pouch, including colored side gussets for each blend. Printed on HP Indigo digital presses with a stunning premium matte white finish.

SIZE	RECYCLABLE PE+EVOH	COMPOSTABLE KRAFT
S (150g)	\$2.50 /pc	\$2.70 /pc
M (250g)	\$2.60 /pc	\$2.80 /pc
L (500g)	\$2.70 /pc	\$2.90 /pc
XL (1kg)	\$2.90 /pc	\$3.10 /pc

SOLUTION C: STAND-UP POUCH (DOYPACK) 50% COST SAVER

By transitioning from flat-bottom box pouch to standard Stand-Up Pouches (oval bottom gusset), we ****save you 50% of the cost**** for the same capacities! Sizing still fits perfectly. Retains zipper, valve, and full digital color print.

SIZE	RECYCLABLE (PE+EVOH)	SAVINGS VS FLAT BOTTOM
S (150g)	\$1.25 /pc	Save 50.0%
M (250g)	\$1.30 /pc	Save 50.0%
L (500g)	\$1.35 /pc	Save 50.0%
XL (1kg)	\$1.45 /pc	Save 50.0%

5. ARTWORK REQUIREMENTS & DESIGN SUPPORT

Slide 06

DIELINE & SETUP REQUIREMENTS

To ensure perfect edge-to-edge full print registration on the PE+EVOH or Kraft substrate, artwork files must follow these specifications:

- ✓ **External Bleed:** 3 mm bleed beyond diecut fold lines.
- ✓ **Safe Area:** Keep all essential text, logos, and nutrition details 5 mm away from creases and 15 mm away from the zipper channel.
- ✓ **ZIP & Valve placement:** Pre-set layout templates lock ZIP seals at 30 mm top header and valves centered 20 mm below zip line.
- ✓ **Format:** High-resolution vector file (Adobe Illustrator .AI or print-ready layered .PDF with fonts outlined).

COMPLIMENTARY ADAPTATION SUPPORT

FREE
ASSISTANCE

We provide full design services to ensure your 16 SKU package assets are 100% production ready:

- ✓ **Free SKU Adaptation:** Simply supply the finalized artwork for one size. Our team will scale and align elements across all other sizes at no charge.
- ✓ **Gusset & Linework Alignment:** We will ensure side-gusset color panels and colored linework wrap perfectly across folds without warping.
- ✓ **3D Virtual Proofing:** Interactive 3D web-link mockups will be created for each blend and size for your final digital approval.

6. NEXT STEPS & MEETING AGENDA

Slide 07

MEETING DISCUSSION POINTS

- ✓ Review your RedFoot Coffee visual mockups and side-gusset layout.
- ✓ Confirm blend distribution matching the 4 sizes (150g, 250g, 500g, 1kg).
- ✓ Finalize material selection matching WA logistics and freshness target.
- ✓ Align on timeline milestones, sampling, and air freight scheduling.

B2B PHYSICAL SAMPLE KIT

We are shipping a comprehensive B2B physical sample kit containing our matte white EVOH Recyclable, FSC Kraft Compostable, and high-barrier Aluminum foil bags directly to WA today. This allows you to test heat sealing, zipper strengths, and bean filling immediately.

✉ Please supply your mailing address via WhatsApp or Email!
